Vsebina:

1. Vloga kapitalski trgov v ekonomiji.
Primerjava kapitalskih trgov z bančnimi posojili in drugimi viri financiranja investicij.
 2. Uvod v kapitalske trge
 3. Javna ponudba delnic
 4. Nejavna ponudba vrednostnih papirjev
 5. Preprodaja vrednostnih papirjev
 6. Finančni posredniki: borzne posredniki in upravljalci premoženja
 7. Odškodniska odgovornost in zasebne tožbe
8.Javni (oz. državni) pregon kršitev pravil na kapitalskih trgih (t.j., računovodske prevare, tržna manipulacija, trgovanje z notranjimi informacijami, kršitve borznih posrednikov)
 9. Vloge, ki jih igrajo različni organi pregona
 10. Preprečevanje kršitev: korupcija in pranje denarja
- Pri predmetu bomo predstavili pravno ureditev v ZDA, ki jo bomo primerjali z ureditvijo v EU, kjer ta odstopa.

Content (Syllabus outline):

1. The role of capital markets as a mechanism for capital allocation.
Contrast capital markets with bank lending, as an alternative to capital markets.
2. Introduction to securities markets
3. Public offerings
4. Private placements
5. Resale transactions
6. Financial market intermediaries: broker-dealers and asset managers
7. Liability and private litigation
8. Civil and criminal enforcement of disclosure fraud, market manipulation, insider trading, financial intermediary custody and conflicts violations
9. Enforcement agencies that police capital markets
10. Compliance, with a focus on anti-bribery and anti-money laundering

The course will include a heavy dose of U.S. securities regulation but will compare and contrast with the EU regime where appropriate.

Temeljni literatura in viri / Readings:

Gradivo za vsako predavanje bo dostopno na internetu.

The reading material will be made available online prior to each class.

Cilji in kompetence:

Cilj predmeta je podati študentom širši pogled na pravno ureditev kapitalskih trgov in ekonomskih dejavnikov, ki vplivajo na njihovo ureditev. Dodatni cilj predmeta je spodbuditi razumevanje, da kapitalski trgi presegajo nacionalne okvire, čemur se mora pravna ureditev prilagoditi.

Objectives and competences:

The goal is to provide an understanding of the law and the economics that drive capital markets regulation. It is to foster an understanding that capital markets transcend national borders, and thus regulation must adapt.

Predvideni študijski rezultati:

Po študiju tega predmeta bodo študentje sposobni samostojno kritično ovrednotiti različna pravna vprašanja, ki se pojavljajo pri ureditvi kapitalskih trgov. Novo znanje bodo lahko kasneje nadgradili s predmeti s področja kapitalskega financiranja, prevzemov, pregona gospodarskega kriminala in korupcije, in davčnega prava.

Intended learning outcomes:

After completing the course students should be able to evaluate critically various legal issues that arise in capital markets regulation and enforcement. With this understanding, students will be able to develop further by taking advanced classes on corporate finance, M&A, white collar crime, anti-corruption, and tax.

Metode poučevanja in učenja:

Od študentov se pričakuje, da se bodo na predavanja pripravili in prebrali predpisano gradivo ter da bodo sodelovali pri predavanjih.

Learning and teaching methods:

Students are expected to prepare for class by completing the reading assignments and participate in class discussions.
