Interdisciplinary Doctoral Programme in Environmental Protection Course Implementation in academic year 2024/2025

Following courses will be, based in students' selection, implemented in the academic year 2024/ 2025:

• fully (lecture type courses):

- 1. Interdisciplinary Scientific Research Work
- 2. Doctoral seminar with presentation of the doctoral dissertation proposal in the 2nd year of studies
- 3. Doctoral seminar with presentation of the results of the research work before the completion of the doctoral dissertation and PhD viva in the 4th year of studies

• with consultations (individual research type courses):

Core courses:

- 1. Ecology with Nature Conservation
- 2. Economic and Law of Environmental Management
- 3. Environmental Chemistry and Technology
- 4. Disaster medicine
- 5. Environment, Health, and Wellbeing
- 6. Environmental and Sociological Aspects of Sustainable Development
- 7. Soils and Environmental Geology
- 8. Seismology and Earthquake Engineering
- 9. Air, Water and Climate

Elective courses:

- 1. Environmental Analytical Chemistry
- 2. Ecotoxicity and Environmental Risk Assessment of Chemicals
- 3. Waste Management
- 4. Hybrid Modelling of Environmental Systems
- 5. Karst and Environment
- 6. International Environmental Law
- 7. Designing Environmentally Friendly Products and Technologies
- 8. Environmental Epidemiology
- 9. Ground Water
- 10. Political Ecology
- 11. Application of Remote Sensing
