## 1. FRIBOURG

Fribourg, or Freiburg in German, is one of Europe's most beautiful and best-preserved medieval towns. Yet the city moves to the beat of its students. With over a third of its population being students, this ancient city is truly young at heart.

Located at the crossroads of the German and French speaking regions of Switzerland, and nestled between Northern and southern Europe, Fribourg is a bridge between cultures and languages.

Fribourg hosts a multitude of festivals and cultural events throughout the year, cafés and restaurants that serve first-class delicacies, and is a veritable sporting paradise. It is easily accessible by road, rail, and air from Geneva, Zurich, Lausanne and the Swiss capital, Bern.

### The University

Fribourg reflects the perfect example of Switzerland's long tradition of unity in diversity. With a strong commitment to international relations, the University is part of several strategic networks and has exchange partnerships with more than 150 universities worldwide.

In the past 15 years, the University's student population has more than doubled. Its students and professors hail from 110 countries. Approximately 45% students speak German as their native language, 35% French, and 20% other languages. Students can study in French and/or German as well as in English in some Master's programs.

The curricula are modular, which allow for specialization, and are spread over three years for Bachelor's degrees with an additional average of 18 months for Master's degrees. PhD's are offered in all disciplines, and doctoral students can network by participation with doctoral programs with national and international partners.

### For One and All

The University ensures that adequate infrastructure is available for all students at all times. There are numerous libraries, reading rooms, computer rooms and a foreign-language media centre on campus. Institutions for social advice, grants, study and career guidance, psychological counselling, a nursery, and spiritual guidance, support the students in their day-to-day life. The AGEF (General Student's Association) helps students find jobs, lodging or even books.

### Mens Sana In Corpore Sano

The University Sports Institute offers a range of classes in 30 different sports: The "Mountain and Sports" programme includes activities like snow-shoe walking (at night when there is a full moon), rock climbing on weekends, paddle, etc.: see the programme on: <http://www3.unifr.ch/sportuni/fr/>.

Musical talent finds expression in choirs and in the University of Fribourg and city orchestras. There are many associations promoting leisure activities.

### 3. LANGUAGE POLICY

The official teaching languages of the University are French and German.

Few lectures taught in English are offered but mainly at the Master's level; they hardly exist at the Bachelor's level. The Faculty of Science requires English in addition to French and German.

Students must have sufficient oral and written proficiency in French or German to be able to follow a class taught in one of the two languages. We highly recommend the student to have a B1 level (Common European Framework of Reference for Languages) when arriving in Fribourg. An official confirmation of your language level is necessary as well as the evaluation form of the [European Language passport](#) is to be attached to the application form.

#### 3.1. PRE-SEMESTER LANGUAGE COURSE

**Students who attend only English taught classes are obliged to take the pre-semester language course.**

French language course	-Highly recommended for students who attend lectures in French/German
German language course	-Goal is to refresh French/German knowledge, enable to be exposed to an introduction to the Swiss way of life, to the city of Fribourg and to some Swiss customs -Different levels, <b>but not open for beginners</b> -Very useful in taking the first steps towards integration in Fribourg and its University
Language course for beginners	-Tailored for student without knowledge of French or German and who take English taught classes -Will teach basic knowledge of the language for the everyday life, including an introduction to the Swiss way of life, to the city of Fribourg and to some Swiss customs -Very useful for becoming part of the community

#### 4. SPECIAL NEEDS

The University of Fribourg can cater students and staff with special needs on individual request. Please contact the International relations office as early as possible: [international-incoming@unifr.ch](mailto:international-incoming@unifr.ch).

In general, the University of Fribourg offers its help to people with a disability regarding the access to buildings or accommodation, as well as in case of questions relating to special consideration of disability in the course of study or exams.

More information: [www.unifr.ch/uni-info/en/index/disability](http://www.unifr.ch/uni-info/en/index/disability).

Students can communicate any disability while filling the online application.

#### 5. FACULTIES (SCHOOLS)

Most of the programs offered at Bachelor and Master Level are open to exchange students.

#### 6. COURSE CATALOGUE

The course catalogue is available on the following websites. Each Faculty/School has its own system.	
<b>Economics and Social Sciences</b>	Course programme under <a href="http://www.unifr.ch/ses">www.unifr.ch/ses</a> (available in English) students – studying – course programme
<b>Law</b>	<a href="http://gestens.unifr.ch">http://gestens.unifr.ch</a> (only available in French and German)  <a href="https://www3.unifr.ch/timetable/">https://www3.unifr.ch/timetable/</a> (available in French, German and English)
<b>Arts and Humanities</b>	
<b>Science</b>	
<b>Theology</b>	

Although the Diploma bears the same name from one University to the other, the way courses are combined is different. The exchange student has to figure out what is expected from her/his home University while away. Are the language classes recognised? Is it the course that will be recognised or the number of credits? The transfer from ECTS – European Credits to “local” credits is the responsibility of the home Institution. (See

point 8)

The University of Fribourg offers English taught classes mainly at Master's level except in the English Department where the offer is for Bachelor level as well.

### 6.1. LANGUAGE CLASSES DURING THE SEMESTER

Classes of French, German, Italian and English are open to students from any Faculty or Schools. Please check on the following link to find the list of the current classes offered:

<http://www.unifr.ch/centredelangues/en/courses/CAT.A#dates4>.

**No extra fee for the classes at the Language Center!**

## 7. HOW TO FIND THE ENGLISH TAUGHT CLASSES

The list of courses for the next academic year might not be available at the time students are applying; the best in that case is to consult the year in progress:

<https://www3.unifr.ch/timetable>.

### Good to know:

Intensive courses / Conferences in English (Cours intensifs bloc – Block Kurse) are offered and are to be found on the web sites of the Departments. Those are generally taught by guests Professors and the schedule is not always available until the beginning of the semester.

## 8. EXAMS, CREDITS AND TRANSCRIPTS

Students are assessed either by oral or written exams, or by papers.

The credit system is based on the European Credit Transfer System ECTS. One ECTS credit corresponds to a workload of 25 to 30 hours. A degree-seeking student would have 30 ECTS per semester.

Exchange Students usually take less as the teaching and learning is in another language. This has to be discussed prior to departure with the home coordinator.

Each exchange student will receive a Transcript of Records, where all the courses and exams will be listed. Once all results are known, the transcript will be issued (but not before February, 15 for the Fall Semester and July, 15 for the Spring Semester / Academic Year).

### Faculties (Schools)

Each faculty of the University of Fribourg has its own regulations and calendar for exams. Please check on the websites below for more information.
