- • • Get more funding with **successful** project proposals.
- • • Minimize my **costs** for external editing and proofreading.

Write clearly and accurately,  
produce high quality and  
efficient sentences.

Get instant recommendations  
and ideas on how to  
improve your text.

Improve your text  
interactively and learn  
how to write better English.

I can hardly imagine writing articles without InstaText. When I read through the proposed improvements, I immediately understand how the text should sound. It's like a proofreader you can access at any time.

**dr. Jana Krivec**  
Senior Lecturer

InstaText is a great tool! I use it to improve English texts such as articles, projects and abstracts for conferences. The tool provides very useful suggestions that help me to translate the text to a professional level so that no additional review by "native speakers" is required. The time and money savings are obvious. I highly recommend it!
