

Bitstamp is the original Cryptocurrency Exchange.

Since 2011 when we started in a garage with just two laptops and some big ideas, we have been at the forefront of the crypto industry, driving innovation and ensuring that above all else we are human in our approach, trusted by our customers and, with an unwavering belief in blockchain technology, providing secure and innovative access to crypto to all corners of the world.

Our success has been always about the amazing ideas, talent and passion of our people and the disruption we have created together on our crazy crypto journey. We are growing faster than ever, creating opportunities where we find the best people and always looking for the next bunch of crypto-curious thinkers and individuals who want to make the next difference.

As a **Legal Intern/Student**, you will join the **Legal Team**, you'll work with an international group of like-minded people who are passionate about driving growth and development of the company and its people.

What you'll do

- Providing day-to-day support to the legal team.
- Archiving of documents.
- Reviewing NDAs and other simpler agreements.
- Drafting less complex agreements and internal policies.
- Gathering documentation for different tasks.
- Researching the crypto regulatory landscape.
- Reviewing legally relevant crypto news.
- Other supporting activities within the legal team.

On day one you'll bring

- At least 3 years of completed studies in law.
- Fluency in Slovene (C2) and English (C1).
- Knowledge of Microsoft Office tools.
- Passion for crypto and work in an international environment.
- Good attitude and willingness to learn and grow.
- Proactive approach.

We'll love it even more if you have

- Good knowledge of French or other European language.
- Excellent verbal and written communication and interpersonal skills.
- Experience in paralegal work and/or crypto.

You will fit right in at Bitstamp if you are

- Keen to learn and evolve as a lawyer in the area of IT and crypto.
- A team player – taking initiative, collaborative, goal oriented, reliable and with good attitude.
- Capable of working in a fast-evolving environment.

The benefits of Life at Bitstamp

- A truly flexible working environment and an ability to work where you are most productive. Sometimes at work, sometimes at home, sometimes on the move.
- Access to great technology.
- Generous home office allowances on joining to help set up your home space.
- Long term employment, training and development opportunities, great company culture.
- Competitive benefit programs developing for each market.
- Industry mentors, and opportunities to develop and learn from others.
- Internal Gaming Tournaments and regular collaboration events.
- Bitstamp Cares . The communities which are important to our people are important to us, and we are active in our support and celebrations.
- A VERY pet friendly office culture. We love animals (actually are kind of crazy for them) and celebrate the love and companionship they share with us. Please bring them with you to work (seriously).
- Delicious breakfast, fresh fruit, snacks, coffee, tea, full fridge of beverages and ice cream in collaboration hubs.

Our Story

Bitstampers are truly passionate about bringing cryptocurrency to the mainstream and championing independent investing with life changing potential.

We are proud to be leading the way in creating access to this next generation of finance and have become the world's longest-running cryptocurrency exchange by driving innovation and ensuring that we are, above all else, human in our approach, trusted by our customers and, with an unwavering belief in blockchain technology, always strive to provide secure and innovative crypto access to all corners of the world.

This doesn't happen by chance, and we believe our success has come from our belief in the power of being different and finding people who want to explore together, create together and support each other's growth.

We have already achieved so much, and have our sights set firmly on our future. Come join in our revolution and be part of the Bitstamp story.
