# Law and Revolution

## Past Experiences, Future Challenges

Edited By **Matej Accetto, Katja Škrubej, Joseph H. H. Weiler**

This volume explores challenges for law brought about by various disruptive realities, exploring the past as well as the future. Following the text of the opening lecture by Pitamic, contributions deal with the law and revolution in 1918, challenges posed for law by seemingly more gradual political or technological transformations, the effects of globalisation and the changing world, with the final contributions reassessing the law, its methodologies and traditional paradigms including challenges posed for law by the Covid-19 pandemic. The book will be of interest to academics, researchers and policy-makers working in the areas of Legal History, Jurisprudence and Law and Politics.
