

VABILO

na srečanje in predstavitev karierne poti

KLAUS BALSLEV PEDERSON

Energy Data Manager at International Energy Agency

(OECD)

»Klaus Pedersen has been working in an international environment his entire career. He is now working in the Organisation for Economic Cooperation and Development (OECD) in Paris. It is very rewarding to be working in an international environment. But it can also be difficult to be 'away' from home. This session will make you aware of issues to consider and hopefully make it easier for you to make the right choices. He will be talking about the following:

- What is an international organisation? Special focus on EU and OECD.
- How is it to work in an international organisation? Going through conditions (salary, holidays, career perspectives)
- How do you get to work in an international organisation? Concrete advice on recruitment procedures in an international organisation.
- What should you consider when making tough career decisions? Concrete questions to ask yourself.« (K. B. Pederson)

Srečanje bo potekalo:

- v četrtek, 2. marca 2017
- na UL Ekonomska fakulteta, predavalnica P-201
- od 16.30 dalje

Dogodek je priložnost, da iz prve roke spoznate, kako poteka delo v taki organizaciji in za katere strokovne profile je v njej priložnost!

Pripravite svoja vprašanja in se povežite!

Prosimo, da se na dogodek predhodno, do srede, 1. 3. 2017, prijavite na e-naslov: sabina.znidarsic-zagar@uni-lj.si.
